It's Mindset Monday folks! Success loves preparation. There is no substitute for it. The keyword here is “preparation”. What is preparation for you? Why should you prepare? How should you prepare? Preparation does more than for being ready, it also puts you in position to handle what you didn't see coming. Feel me?

If the perfect opportunity presented itself today, would you be ready?

It is important that you can do what you can with the little you have right now so that when things are set or you become “lucky”, you will fly high. In order to succeed, you must be ready when opportunity comes. Plan your success. Take inventory. Spend most of your time preparing for success, once your opportunity comes, you'll be glad you did.

*What are the actions steps you will take to achieve your goals?*
